

Stretch Hood

Description

Viplastic's Stretch Hood is a gusseted elastic tubular, used for automatic hooding without the use of heat sources. In addition to its practicality of use, the Stretch Hood stands out for the excellent seal, stability and safety it guarantees to the pallet.

The Vicycle version allows the introduction of up to 50% PCR, thus reducing emissions with the same quality obtained with 100% virgin polymers.

Benefits

Material savings per package

Security during transport

Puncture resistance

Moisture and dust resistance

Total impermeability

Properties

Width	500 - 3500 mm
Thickness	25 - 180 µm
COF	0,15 - 0,50
Elongation	> 30 %
Colour	on demand
In-line printing	max 3+3 colours
Additives	UV, UV barrier, slip agent, others on demand
Plastic or cardboard core	76/152 mm
Perforation	micro/macroporation
