

Hoods

Description

Viplastic hoods are the simplest solution for protecting your pallet. They are suitable for both shrink-wrapping and manual covering. The hoods can be easily applied to the pallet with no need for additional systems to secure the load, while ensuring perfect protection of the goods.

The Vicycle version allows the introduction of up to 100% PCR, thus reducing emissions with the same quality obtained with 100% virgin polymers.

Benefits

Puncture resistance

Easy manual application

Total impermeability

Properties

Circumference	max. 6000 mm
Thickness	30 - 200 µm
Colour	on demand
In-line printing	max 3+3 colours
Off-line printing	max 3+3 colours
Additives	UV, UV barrier, antistatic, others on demand
Perforation	micro/macroporation
