

# Shrink film

## Description

Viplastic's Shrink film is a useful product for protecting goods and securely securing a load. Used for filling and packaging goods on pallets, the Shrink film is applied with automatic machines with/by hot shrinkage.

The Vicycle version allows the introduction of up to 70% PCR, thus reducing emissions with the same quality obtained with 100% virgin polymers.

## Benefits

High load stability

Security during transport

Puncture and high temperature resistance

Moisture and dust resistance

Total impermeability

## Properties

Width	120 - 4600 mm
Thickness	18 - 200 µm
Colour	on demand
In-line printing	max 6 colours
Off-line printing	max 6 colours
Additives	UV, antistatic, others on demand
Plastic or cardboard core	76/152 mm
Perforation	micro/macroporation
