

Shrink hood

Description

Viplastic's Shrink hood is a product used for hooding pallets, it is applied through automatic packaging machines as the film contracts with the application of heat.

The Vicycle version allows the introduction of up to 70% PCR, thus reducing emissions with the same quality obtained with 100% virgin polymers.

Benefits

High load stability

Security during transport

Puncture and high temperature resistance

Moisture and dust resistance

Total impermeability

Properties

Width	700 - 3500 mm
Thickness	18 - 200 µm
Colour	on demand
In-line printing	max 3+3 colours
Additives	UV, UV barrier, antistatic, others on demand
Plastic or cardboard core	76/152 mm
Perforation	micro/macroporation
